## SOME OF THE ACTIONS THAT HELPED REDUCE OUR EMISSIONS

Purchased 100% green electricity

Installed new circulation pumps

LED lighting throughout the hotel with sensors in less frequently used areas

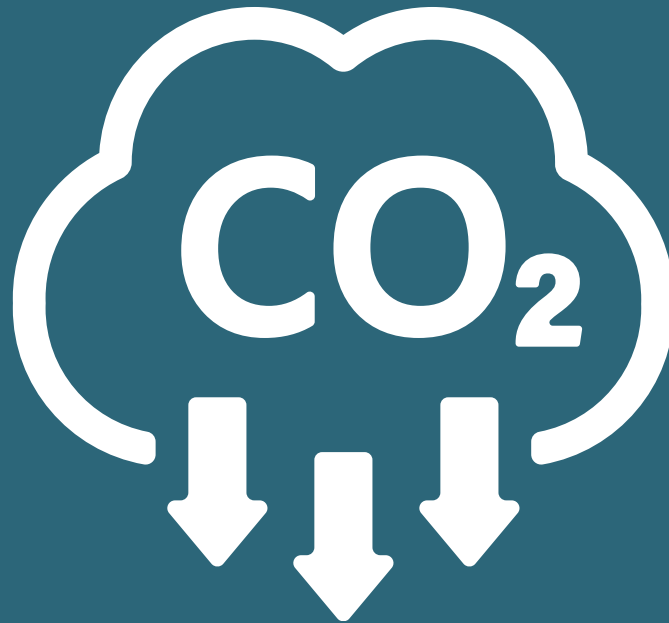

We have insulated water pipes

Daily Energy Walks to turn off any items not being used

Regular review of heating times and temperatures

## Scope 1 & 2 emissions reporting

In 2022, CO<sub>2</sub>e  
emissions were  
0.32kg per guest

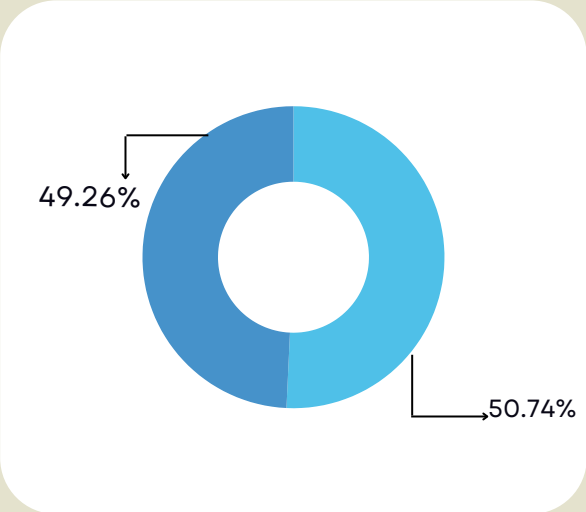

In 2023, CO<sub>2</sub>e  
emissions were  
3.7 kg per guest

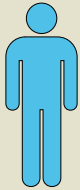

**DUE TO AVAILABILITY & COSTS WE USED  
LPG INSTEAD OF BIOLPG IN 2023 WHICH  
INCREASED OUR EMISSIONS**
